

The Children's Hearing Institute

Educational Outreach Program

The Children's Hearing Institute, founded in 1983 by Dr. Simon Parisier and his wife Elaine, is dedicated to helping children with hearing loss and their families. For the past three decades, The Institute has supported pioneering research as well as medical, educational, and therapeutic innovations that have immeasurably improved the lives of children with hearing loss. Today, we continue to work with additional medical and educational institutions to become an even stronger resource for doctors, clinicians, families and children.

Supported activities include:

- *Funding for major medical centers and programs in the New York metro area.*
- *Professional Conferences – Continuing Education Coursework*
- *FREE Parent & Family Workshops (both in English & Spanish)*
- *SMART Program (Social Mentoring & Advocacy Resource Training)*
- *Community and Tri-State Sponsorships*
- *Accredited Provider for Continuing Education by ASHA, AAA & LSLS*
- *Follow us on*
